

OJO IFEDOLAPO ABRAHAM

IBADAN, NIGERIA.

+2347048033120 # IFEDOLAPOOJOW@GMAIL.COM # LINKEDIN: [IFEDOLAPO OJO](#)

Objective

Technical writer with a passion for simplifying complex technical concepts in API documentation. I am seeking a position at a respected organization where I can utilize my technology, writing, and communication skills to help others understand and use APIs effectively.

Skills and Technologies

- Technical writing and documentation
- Agile methodology, Jira, and Confluence
- Swagger, Stoplight, and Postman
- Collaborative, leadership, and problem-solving
- RESTful API documentation and testing
- Python, HTML, and CSS
- Git and GitHub, Microsoft Word, and Google Docs
- Written and verbal communication

Experience

Technical Writer - October 31 - Present [Here](#)

Fiverr

- Produced clear and concise documentation for critical API endpoints related to Relay state management, enhancing developer understanding and usability.
- Provided well-commented code examples within the Postman collection, showcasing coding expertise and facilitating the seamless implementation of Relay state functionalities by developers.

Web Developer – July 2023- Present

Action Biblique Suisse, Switzerland

- Styled events page using CSS and Display Posts Shortcodes, making pages more organized and beautiful
- Modified menu structure and slider on WordPress to update events.

Freelance Technology Blogger – March 2023 - Present

Upwork

- Wrote thrilling technology-based articles for engagement and traffic

Web Editor – October 2022 - Present

Action Biblique Renens, Switzerland

- Restructured, proofread, and edited content on their English website to make it more engaging and understandable.

- Implemented a geotagging feature on their website for easy location of various branches.
- Created pages and posts on WordPress to update their website

Freelance Technology Blogger – October 2022 - Present

Fiverr

- Wrote engaging technology content for technology and Software as a Service (SaaS) content website

Education

Bachelor of Engineering: **Civil Engineering** – April 2025

University of Ibadan, Nigeria

Projects

Bauteilsortiment API (Swagger, GitHub)

- Tested endpoints for functionality on Swagger and Django after being added to the backend server powering the site [Here](#)
- Contributed to API documentation on GitHub by adding servers and tags object [Here](#)

Open API (Swagger, Stoplight, YAML) [Here](#)

- Documented a section of Open Weather Map API from scratch using Swagger and Stoplight

Web Scrapping (Python) [Here](#)

- Used Python for web scrapping to get events data using Selenium

Other projects can be found in my GitHub repository [Here](#)

Achievements and Awards
