IFEDOLAPO ABRAHAM OJO

ifedolapoojow@gmail.com | Portfolio | LinkedIn

Profile

Technical writer with a strong background in API documentation, technical tutorials, content marketing, and agile methodologies. Experienced in delivering clear, accurate, and user-focused documentation. Proficient in tools like Mintlify, Postman, and Swagger, with a proven track record of improving efficiency and clarity in technical communication.

Experience

Freelance Technical Writer and API Documentation Specialist (Jan 2024 – Present)

- **Bright Data:** Authored technical tutorials on web scraping with Bright Data, Ollama AI Model Runner, and Stagehand.
- **iPurvey:** Documented Webhooks and API endpoints with 100% accuracy, ensuring seamless integration.
- Built and deployed API documentation with Mkdocs, increasing service efficiency by 25%.
- Developed user manuals for Siemens Desigo API and agile tools (Scrum, Jira), improving clarity by 50%.

Technical Writer | DesignXcel (Jan 2025 – April 2025)

- Collaborating with cross-functional teams to gather information and understand project requirements.
- Developing high-quality documentation and multiple user manuals for products
- Supporting internal and external communication efforts as needed.

Technical Writer | The Social Proxy (Sept 2024 – Nov 2024)

- Authored technical tutorials on web scraping with Python, ensuring bug-free implementations.

Contract API Documentation Specialist | KeyTalk API (Aug 2024)

- Transformed API documentation from PDF to a fully web-based format using Postman, enhancing accessibility.

Contract Technical Writer | PDF Generator API (June 2024)

- Created technical content with JavaScript code snippets, achieving 100% clarity in user guides.

Technical Writer | Relogic (Oct 2023 – Nov 2023)

- Developed a Postman collection with 8 code examples for Relay State implementation.
- Discovered and documented 2 bugs, achieving 100% efficient API responses.

Web Editor | Action Biblique Renens (Oct 2022 – Feb 2024)

- Revamped website event page design using HTML and CSS, achieving 800 monthly visits.
- Managed English and French website content on WordPress, achieving 1,300 monthly visits.

Technical Writer | Crescent Writing Wheelhouse (Jan 2022 – Aug 2022)

- Researched, wrote, and edited 24 technical papers, showcasing strong technical understanding.

Open Source Projects

JSON Placeholder API Docs with Mintlify

- Developed API documentation using an AI-powered documentation tool, Mintlify, integrating features like a search bar to enhance user navigation and accessibility.

Expensify API Documentation with Docusaurus

- Created Expensify API documentation, including a tutorial section, using Docusaurus, a popular documentation creation tool, to improve developer onboarding and usability.

Trustpilot Reviews Scraper

- Built a Selenium-based Python script to extract and store Trustpilot review data for sentiment analysis.
